Dear Ms. Dortch:

Pursuant to Paragraph 101 of the *Notice of Proposed Rulemaking, Order, and Notice of Inquiry* issued in the above captioned proceedings on April 18, 2013 (“*Numbering Order*”), Vonage hereby submits its Fourth Report on its numbering trial. Under the *Numbering Order*, the initial report is due sixty (60) days after Vonage requests direct access to numbers. After the initial report, ongoing reports are due monthly during the course of the trial. Vonage filed its initial report on the trial on August 19, 2013, its second report on September 19, 2013, and its third report on October 24, 2013.

As of this report, Vonage provides the following information for the specific reporting categories in Paragraph 103 of the *Numbering Order*.

- | | |
|--|----------------------|
| 1. Total of new numbers placed in service: | 1,343 |
| 2. Total number of port-in requests (including migration of existing | 116,509 ¹ |

¹ There are also 229 port-in requests currently pending. In addition, there have been 56 port-in requests that were rejected due to the customer providing insufficient information to meet the losing carrier's validation requirements, 14 port-in requests that were cancelled by the requesting customer prior to the port being executed, and 9 port-in requests were cancelled

customers and newly won customers):

- | | |
|---|------------------|
| 3. Percentage of successful port-ins: | 100% |
| 4. Total number of port-out requests for directly held numbers: | 247 ² |
| 5. Percentage of successful port-outs: | 100% |
| 6. Total number of routing failures: | None |
| 7. Description of any billing or compensation disputes: | None |

The above information is for the Atlanta and Boston markets. Because Vonage was not able to reach agreement with CenturyLink, the relevant RBOC in the Phoenix market, to ensure that routing of PSTN traffic to telephone numbers directly held by Vonage will work properly, Vonage decided not to move forward in the Phoenix market. In lieu of migrating customers in the Phoenix market, Vonage migrated additional customers in the Atlanta and Boston markets to numbers held directly by Vonage.³

because YMax Communications has, thus far, refused to cooperate to enable direct porting to Vonage. We are currently in the process of porting these numbers to our CLEC partner in the trial – Peerless Networks. We will then migrate these numbers from Peerless to Vonage.

² There are also 132 port-out requests currently pending. In addition, there were 5 port-out requests rejected because the requested number was not a Vonage number.
